

# 2021 COMPREHENSIVE SURVEY

## DISPATCH CENTER

Dear public safety dispatch colleagues,

The Department of Criminal Justice Training continually studies criminal justice training in Kentucky and is required to furnish information relating to standards for recruitment, employment, promotion, and organizational management of criminal justice agencies. I am privileged to report the DOCJT 2021 Dispatch Center Comprehensive Survey findings, the first of its kind in the commonwealth.

DOCJT staff distributed this survey online and made personal contact with agency executives. The survey gathered information from public safety dispatch directors regarding salaries, agency policy and procedures, recruitment and retention strategies, and dispatch equipment. We hope state and local officials benefit from the statistical information of Kentucky dispatch centers, propelling the advancement and delivery of services for years to come.

I want to express my gratitude to those who responded to the survey and provided DOCJT the opportunity to study the data. One of our goals from this survey is to learn, compare information, and use the data provided to continue advancing as public safety dispatch professionals. We believe you will find the results to be both encouraging and, at the same time, indicate areas for improvement.

Sincerely,

A handwritten signature in black ink, appearing to read 'N. Jilek', with a long horizontal line extending to the right.

Nicolai R. Jilek

*Commissioner, Department of Criminal Justice Training*

## EXECUTIVE SUMMARY

The 2021 Dispatch Center Comprehensive Survey is the first survey of this magnitude for dispatch centers in Kentucky. The survey was sent to 112 dispatch centers throughout the state, 69 of those agencies responding — a response rate of 61%. The results are summarized in this report.

According to the 2021 survey data, the average number of full- and part-time dispatchers working for all responding Kentucky public safety dispatch agencies is 12. Also, note that 27% of responding agencies reported having 10 or more full-time dispatchers, while 16% have five or fewer dispatchers.

The survey asked respondents to record the entry-level starting salary for non-ranking, full-time dispatchers. The average salary for a Kentucky entry-level dispatcher in 2021 is approximately \$29,760. This figure does not include training/pay incentives, uniform allowances, signing bonuses, or specialist pay.

Of the five highest-paid dispatch agencies in the state, three are located in northern Kentucky and two in western Kentucky. The average of the five highest-paid agencies is \$42,667. Conversely, four of the five lowest-paid agencies are located in southern Kentucky, with one in north-central Kentucky. The average starting salary for the five lowest-paid agencies is \$19,511.

Dispatch equipment is vital for accomplishing the agency's mission and ensuring community and responder safety. Forty-five percent of the responding agencies use Motorola radios, and 30% utilize the Computer Information Systems (CIS) brand of computer-aided dispatch software.

PowerPhone is the most commonly used emergency medical dispatch (EMD) provider in the state, with 63% of responding agencies reporting its use. Twenty-nine percent of responding agencies do not provide EMD services.

Preparing for and coping with the aftermath of critical incidents is imperative. Sixty-four percent of responding agencies provide access to a licensed mental health professional for dispatchers, while only 16% mandate critical-incident counseling. Twenty-one percent of responding agencies utilize the Kentucky Law Enforcement Assistance Program resources.

## INTRODUCTION

Kentucky Revised Statute 15A.070 (2) prescribes “That the Department of Criminal Justice Training shall make a continuing study of law enforcement training standards and, upon request, may furnish information relating to standards for recruitment, employment, promotion, organization, management, and operation of any law enforcement agency in Kentucky.”

The 2021 Dispatch Center Comprehensive Survey is designed to establish a roadmap for the future of public safety dispatch centers in Kentucky. This survey provides leaders with the most current public safety dispatch practices at both state and local levels. We hope this new information will be valuable in helping to identify current trends and future needs for Kentucky dispatch centers.

## ABOUT DOCJT

Considered one of the most successful programs of its kind in the nation, Kentucky's Department of Criminal Justice Training (DOCJT) provides basic training and continuing education for law enforcement officers and dispatch personnel from across the state. This includes police departments, sheriffs' and coroners' offices, telecommunication operations, and others.

In 2020, more than 10,000 students attended DOCJT programs totaling nearly 360,000 instructional hours. All Kentucky dispatchers are required to attend a basic telecommunications training session approved by the Kentucky Law Enforcement Council within their first year of hire. DOCJT offers a four-week Public Safety Dispatch Academy training session at no charge to dispatch students or agencies.

Likewise, all dispatchers are required to complete a minimum of eight hours of in-service training each year. The Kentucky Legislature mandates the requirements in the Telecommunications Professional Standards Act. The Kentucky Law Enforcement Council oversees the training and certification of Kentucky's public safety dispatch community.

In 1998, DOCJT received its initial certification from the Commission on Accreditation for Law Enforcement Agencies

(CALEA). In 2003, DOCJT became the first public safety training academy in the nation to be accredited under CALEA's Public Safety Training Academy Accreditation program. The department was reaccredited in 2006, 2009, 2012, 2015, and most recently, March 2018.

In 2013, DOCJT met all the International Association for Continuing Education and Training (IACET) program standards, making DOCJT a continuing education credit unit (CEUs) provider under the IACET umbrella. DOCJT now issues CEUs to professionals who have already attained a certain level of education and need additional continuing education and training per year to maintain certification.

ACCREDITED BY

## SURVEY METHODOLOGY

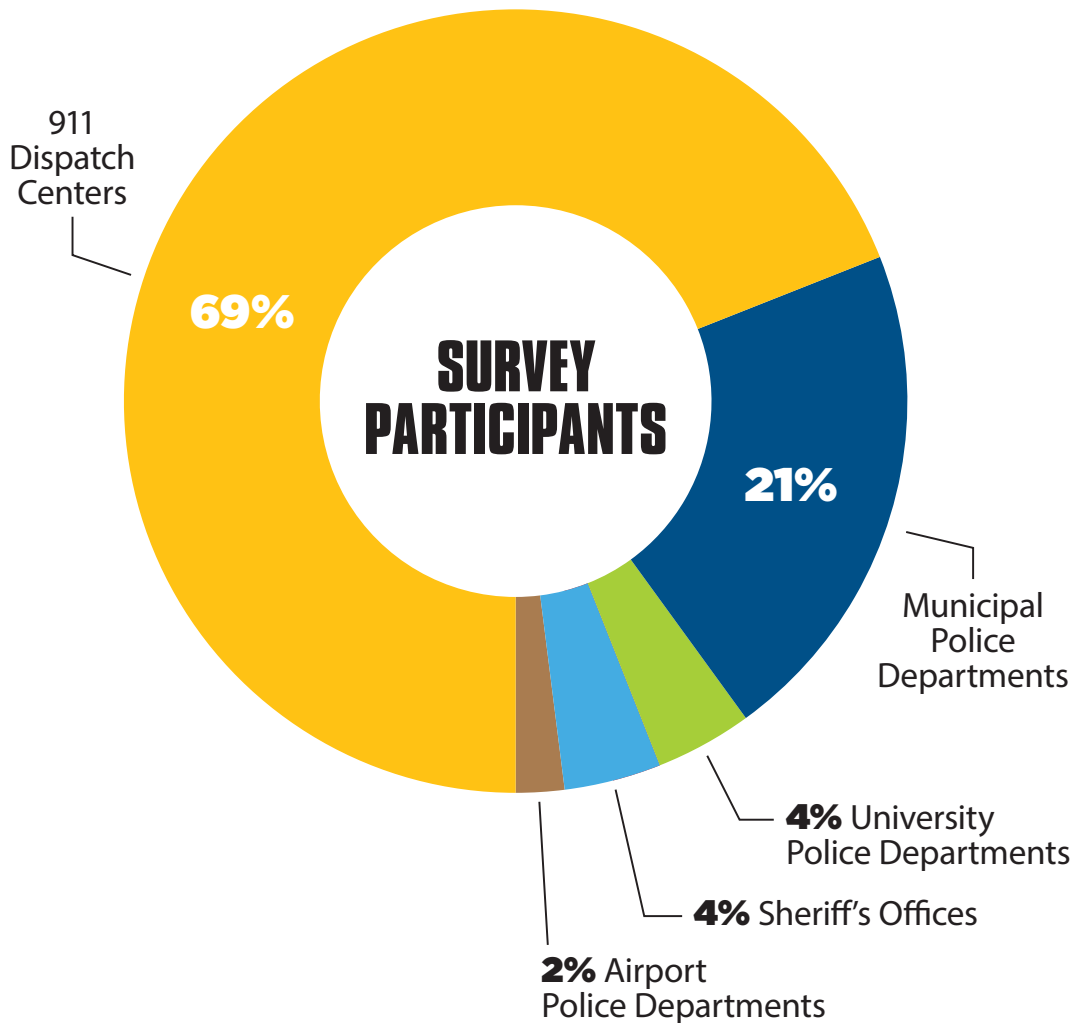

The DOCJT survey design staff met with the Telecommunications Section to discuss their needs regarding course development, trends in public safety dispatch, and how the 2021 Dispatch Center Comprehensive Survey results can benefit all dispatchers in the state. To better report trends and critical topics to dispatch agencies, DOCJT released a social media post via all DOCJT social channels to gather input on topics relating to agencies and communities. These suggestions were compiled to create the survey instrument.

With the DOCJT staff and dispatch executives' input, the instrument was developed and distributed to 112 active public safety

dispatch agencies throughout the commonwealth. Those agencies included municipal law enforcement agencies, sheriff's offices, state law enforcement, airport authorities, college/university police, and telecommunication centers.

Sixty-nine agencies responded to the survey, for an overall response rate of 61%. Approximately 551 Kentucky dispatchers are represented in this report.

The survey was available from June 22 to July 26, 2021.

### LIMITATIONS

The 2021 Dispatch Center Comprehensive Survey is the inaugural survey of this type; therefore, no previous data is used for comparisons or the expressions of increases or decreases over time. It is possible that differences in interpretation of definitions, descriptions, and terminology used in the questionnaire could result in slightly skewed data. Statistical summaries provide information considered to be valid only for the time during which the data was collected. It should also be noted that the data was self-reported; thus, errors in the reporting of information could have occurred.

## AGENCY PERSONNEL OVERVIEW

The average number of full-time dispatchers for all reporting agencies was 10, and two for part-time positions.

AVERAGE NUMBER DISPATCHERS	FULL-TIME	PART-TIME
All Agencies	10	2
911 Dispatch Centers	10	2
Police Departments	10	1
Sheriff's Offices	13	3
University Police Departments	2	0
Airport Police Departments	12	1

Forty-six agencies reported a total of 72 unfilled, authorized full-time dispatch positions, and 38 vacant part-time positions were reported. The majority of responding agencies reported using a 12-hour work shift, with an eight-hour shift being the second most popular. Fifty-three percent of responding agencies reported using a permanent or fixed-shift rotation.

With a range of one to 30 years, the average Kentucky public safety dispatch executive has served 9.2 years.

The majority of full-time dispatchers have less than five years of public safety dispatch experience. Data indicated a 63% decrease in dispatchers with 6 to 10 years of experience. Also, data showed a 19% decrease in the number of dispatchers with 11 to 15 years of experience. These statistics are noteworthy in the retention endeavors of career dispatchers.

DISPATCHER

### SALARY OVERVIEW

The average salary for full-time, entry-level dispatchers was reported as \$29,760. The median salary was \$29,224, with the range of salaries from \$18,720 to \$53,448.

With this survey being the first of its kind, previous years' salary data is not available. Future comparisons will be analyzed with subsequent reports.

## TOP IMPLEMENTED POLICY AREAS

- 95%** CODE OF CONDUCT
- 93%** DISCIPLINE
- 93%** SEXUAL HARASSMENT/DISCRIMINATION
- 93%** TRAINING
- 92%** RADIO PROTOCOL
- 92%** MISSION AND VALUES
- 92%** COMPUTER AND EMAIL USE

## FEWEST IMPLEMENTED POLICY AREAS

- 47%** CTO PROGRAM SELECTION
- 45%** ASSIGNED PROPERTY INVENTORY
- 45%** COMMUNITY ENGAGEMENT
- 44%** DOMESTIC MISCONDUCT
- 41%** PEER SUPPORT
- 32%** RETURNING VETERANS

## GENERAL POLICIES

More than 90% of responding agencies reported having written policies regarding code of conduct, computer and email use, discipline, dispatch procedures, mission and value statement, radio protocols, sexual harassment/discrimination, training, and workplace harassment. Fifty-six percent of responding agencies reported having a policy on early intervention/employee assistance programs. Sixty-six percent of the responding agencies reported having a critical-incident training policy. Sixty-nine percent of respondents reported having a policy regarding pre-arrival instructions. *Go to page 17 to see full data.*

## EMPLOYMENT

When asked about employment practices, all responding agencies reported a formal application process is utilized for the initial hiring of dispatch personnel. Thirty-nine percent require a written examination, and 73% use a formal interview board for initial employment.

Data indicates agencies are just as likely to hire a person new to the profession as they are to hire a retiree or a lateral transfer. When advertising for open dispatch positions, most agencies reported receiving fewer than 15 applications.

Eighty-four percent of responding agencies reported that individuals are permitted to work on shift prior to completing basic training. Thirty percent of responding agencies reported new hires are permitted to take 911 calls after two weeks on the job and before completing basic training.

AGE GROUP OF NEW HIRES	RESPONSE
18-20	37%
21-25	60%
26-30	42%
31-35	15%
36-40	15%
41-45	28%
46+	17%

A lateral employee is defined as a Telecommunications Professional Standards certified graduate of a basic training academy seeking employment by another in-state agency. Respondents reported that 25 lateral employees were hired last year. Eighty-six percent of responding agencies require background checks on lateral-entry personnel. Seventy-three percent of agencies require drug screenings, and 28% require a suitability screening and a polygraph examination.

## RECRUITMENT AND RETENTION

In today's world, recruiting and retaining dispatchers is extremely difficult. These areas were emphasized in the current survey to determine which agencies are successful in recruitment efforts to share with other departments. Additional questions were included to help ascertain why dispatchers separate from agencies and/or leave the profession.

Agencies reported using a variety of recruitment tactics. The primary method was advertising on social media. The traditional newspaper advertisement remains a reliable recruitment tool, but agency websites and college/community job fairs also prove beneficial. Nearly three-quarters of responding agencies do not require newly hired dispatchers to work under a labor contract, but those who do average a 2.3-year contract.

HOW DOES YOUR AGENCY PROMOTE ITSELF? CHECK ALL THAT APPLY.	RESPONSE
Social media	82%
Website	58%
Promotional items (e.g., pins, magnets, stickers, etc.)	26%
Does not promote agency	15%
Brochures	10%
Flyers	10%
Billboards	0%
Other	2%

Retaining qualified and experienced dispatchers is vital to the success of any organization. The top reason for dispatchers not meeting the agency's probation requirements was resignation, followed by failure to meet agency expectations, and failure to complete basic training requirements. Seventy-one percent of dispatchers resigning from an agency last year left the profession. Thirty-four percent left because of either salary/benefits or job-related stress.

## PROMOTION PROCESS

Seventy-nine percent of responding agencies do not require any formalized training to promote to a supervisor position. When asked about promotional practices, responding agencies reported 63% must have a minimum number of years of agency service before a dispatcher is eligible for the first promotional process. The average agency requires at least 2.7 years of service for promotion opportunities.

**82%**  
OF RESPONDING  
AGENCIES REPORT  
USING SOCIAL MEDIA  
TO PROMOTE ITSELF

APPROXIMATELY  
**95%**  
 OF RESPONDING  
 AGENCIES PROVIDE  
 THEIR DISPATCHERS A  
 RETIREMENT PROGRAM

Agencies reported using the following in their promotion process:

DOES YOUR AGENCY'S PROMOTIONAL PROCESS FOR DISPATCHERS CONTAIN ANY OF THE FOLLOWING? CHECK ALL THAT APPLY.	RESPONSE
Appointment determined by agency administrator	53%
Personal interview	53%
Appointment determined by local government administrator	34%
Supervisor evaluation	24%
Written examination	14%
Specific educational training	12%
Peer rating	4%
Staff management rating	4%
Assessment center	2%
Veteran preference	0%

## RETIREMENT

Alterations to state and local retirement plans have a dual effect concerning dispatcher recruitment and the continuous length of service of currently certified dispatchers. Approximately 95% of responding agencies provide their dispatchers a retirement program. Eighty-two percent of agencies reported they provide a state or local non-hazardous retirement program.

## INSURANCE

The rising cost of individual and family insurance plans profoundly affects an agency's budget and the dispatchers' net income. When asked about insurance benefits, 52% of agencies reported paying the total cost of a single medical insurance policy for dispatchers. Sixty percent of agencies pay the total cost of life insurance for the dispatcher.

## COMPENSATION SUPPLEMENTS

Agencies responded to questions regarding specialist pay for Communications Training Officers (CTO), uniform pay/allowance, overtime, shift differential, and educational incentives.

Twenty-one percent of agencies reported offering shift differential pay to full-time personnel, while 27% reported providing educational incentives to full-time personnel.

# EQUIPMENT

## RADIO EQUIPMENT

Radio equipment is an essential element in dispatch functions. Most agencies reported owning their radio license. The majority of responding agencies use a digital-radio system, with Motorola being the most widely used and Kenwood being a close second.

## TELEPHONE SYSTEMS

With ever-expanding technology, choosing a telephone system for an agency can be challenging. Solocom was reported as the most commonly used telephone system, according to the responding agencies. Avaya and Zetron are also widely used throughout the commonwealth.

## COMPUTER-AIDED DISPATCH

Dispatchers use computer-aided dispatch (CAD) systems to prioritize and record incident calls, identify the status of responders, and effectively dispatch responders. In addition, a CAD system manages information from many other systems to optimize dispatch operations.

According to responding agencies, Computer Information System (CIS) is the CAD system used by most agencies. GeoConnex and Caliber are also widely used systems within the state.

## EMERGENCY MEDICAL DISPATCH

Emergency Medical Dispatch is a comprehensive program that assists in information gathering, provides consistent pre-arrival instructions, and helps to provide appropriate medical care in a timely manner.

PowerPhone is the prevalent emergency medical dispatch provider in the commonwealth, according to the responding agencies. Only 24% of responding agencies report integrating pre-arrival instructions into their computer-aided dispatch system. Twenty-nine percent of responding agencies do not offer emergency medical dispatch services.

## ANTIQUATED EQUIPMENT

According to the following chart, the responding agencies agree that antiquated equipment is a future concern.

ANTIQUATED EQUIPMENT, E.G., COMPUTERS, PHONE SYSTEMS, AND RADIOS, IS A CONCERN FOR THE AGENCY.	RESPONSE
Strongly agree	31%
Agree	24%
Neither agree nor disagree	19%
Disagree	19%
Strongly disagree	7%

THE MAJORITY OF RESPONDING AGENCIES USE A DIGITAL-RADIO SYSTEM, WITH MOTOROLA BEING THE MOST WIDELY USED

## TRAINING

By law, certified dispatchers are required to complete annual professional development training. The following analysis identifies future training options that will benefit dispatchers.

Public safety dispatch executives were asked to rate various topics such as administration/organization, personnel, policy, and dispatch operations. More than 97% responded that staffing was high or extremely important to the agency, and 95% responded training, radio systems, and dispatcher mental health were very or extremely important.

Respondents were asked to determine the type of training dispatchers should receive in their first five years on the job and once they have been behind the console for 5-10 years. The results vary. In the first five years of service, critical incidents, drugs/overdose calls, emergency medical dispatch, fire dispatch, motor vehicle collisions, pursuits, and suicidal caller training were identified as most important. Stress, wellness, and resiliency training are identified as essential for 5-10 year dispatchers.

### DISTANCE LEARNING

Distance learning continues to be a needed and reliable training option, especially during a pandemic. Ninety percent of responding agencies support live, online courses as a training option and reported they allow dispatchers to complete these courses while on duty.

WHICH OF THE FOLLOWING DISTANCE LEARNING OPTIONS WOULD YOU PREFER FOR YOUR AGENCY? CHECK ALL THAT APPLY.	RESPONSE
Online (e.g., internet-based slides and videos the student reviews on their own time schedule)	69%
Live, online learning	59%
Blended (e.g., combinations of online learning coupled with traditional classroom training)	59%
Webinar (e.g., a web-based seminar in which students participate in an online learning event with an instructor who shows slides online and discusses information from the slides using chatroom features)	45%
None	7%

**90%**  
OF RESPONDING  
AGENCIES SUPPORT  
LIVE, ONLINE COURSES  
AS A TRAINING OPTION

## LEGAL TRAINING

With the multitude of federal, state, and local mandates, legal training is imperative to reduce negligent and vicarious liability.

The following chart reports the top five legal areas of concern from the responding agencies.

WHICH OF THE FOLLOWING LEGAL AREAS ARE A CONCERN FOR YOUR AGENCY? CHECK ALL THAT APPLY.	RESPONSE
Emergency medical dispatch (EMD)	49%
Discipline	47%
Protective orders	45%
HIPPA	40%
LINK/NCIC	40%

## COMMUNICATION TRAINING OFFICER PROGRAM

Sixty percent of responding agencies have a post-academy training program such as a Communication Training Officer (CTO) program. Seventy-eight percent use the formal CTO program, while 17% use a hybrid version. Fifty-nine percent of CTOs reported completing weekly written evaluations of dispatch trainees, while 48% completed evaluations daily. Agencies require an average of 3.4 years of experience to become a CTO.

## POST-CRITICAL INCIDENT AND DISPATCH WELLNESS

Mental health and resiliency are integral to dispatcher wellness and success. An agency's response to a dispatcher's well-being after a critical incident is vital for a successful recovery. Most agencies do not have a chaplain or counselor on staff, but 64% of responding agencies provide access to a licensed mental health professional for dispatchers. Twenty-six percent of responding agencies have a licensed mental health professional with similar backgrounds to public safety dispatch. Only 16% of responding agencies mandate critical-incident counseling. Twenty-one percent of responding agencies utilize the Kentucky Law Enforcement Assistance Program (KYLEAP).

WHICH OF THE FOLLOWING DOES YOUR AGENCY PROVIDE DISPATCHERS AFTER A CRITICAL INCIDENT?	RESPONSE
Counseling	61%
Peer support	61%
KY Post-Critical Incident Seminar (KYPICIS)	33%
Critical Incident Stress Management (CISM)	19%
Training on common psychological and behavioral reactions	7%
None of the above	14%

**60%**

 CRITICAL ISSUE

## CRITICAL ISSUES

Public safety dispatch officials were asked to rank the importance of various dispatch topics related to their administrative role. The chart below represents the top 10 areas administrators consider extremely important to their agency.

TOP 10 CRITICAL ISSUES	RESPONSE
Operations Policy	97%
Personnel Policy	97%
Staffing	97%
Dispatcher Mental Health	95%
Training	95%
Radio Systems	95%
Administrative Policy	94%
Technology	92.5%
Motivation	92.5%
Telephone System	92.5%

## FURTHER INFORMATION

This report provides information received from the 2021 Dispatch Center Comprehensive Survey. The survey collected additional administrative and training information not reflected in this report. In some portions, the standard practice of rounding up or down was used for area calculations. Absolute values are listed in the appendixes. For a specialized or specific report, please contact the Staff Services and Planning Section, Mike Keyser at Mike.Keyser@ky.gov or (859) 622-8392.
