November 1, 2022

Greetings,

We are excited to bring you the 2023 training schedule with new options to fit your needs. Our staff has worked tirelessly to create and update classes in this schedule that include improvements to our standard classroom training and more online course options. In fact, more than 2,000 seats are available for online in-service training this year (see 2023 Online, Virtual and Blended Class List).

As DOCJT continues to expand the use of Blackboard as a learning management tool within its classes, it's important to note that in 2023, all training students should bring a computer with them for course work, even if the class is taught in person. Computers will be necessary for completing assignments and accessing training materials.

I'd also like to encourage agency leaders whose employees are attending online training this year to provide ample time and space for the appropriate attention to these courses. Just like in-person training, these classes are designed with the best student learning in mind and should not be completed in between calls or in a location where they will be distracted.

Class registration will begin on Tuesday November 15, 2022, through the Acadis portal. You will have 2 weeks to review the schedule book and find your classes prior to registration opening.

Thank you for the work you do and allowing us to serve you through training. Please reach out to Marnie West at marnie.west@ky.gov if you have any scheduling questions.

Kind Regards,

Online Instruction - Asynchronous: Asynchronous learning allows you to learn on your own schedule, within a certain timeframe. You can access and complete lectures, readings, homework and other learning materials at any time during a given period. There may be sequenced assignments that must be completed at specified times.

Virtual Instruction - Synchronous: Synchronous learning means that although you will be learning from a distance, you will virtually attend a class session each day, at the same time as your instructor and classmates. The class is a firm, daily time commitment that cannot be rescheduled.

Blended Instruction: Includes both classroom instruction and Online - Asynchronous.

213T-23J TELE - STRESS AND WELLNESS FOR THE DISPATCHER 8 Hours

How To Save A Life, Yours! The kind of stress that Public Safety Dispatchers experience is not the garden-variety stress the average person experiences. Fear, helplessness or horror are just some of the potential emotional responses that come with the job and can have lasting effects. Cumulative stress can affect work performance, work attendance, personal relationships and social relationships, in addition to presenting a multitude of physical manifestations. Dispatchers for the most part live very unhealthy lives, we eat unhealthy foods, drink unhealthy drinks, sit too long and put ourselves at risk. We will learn to recognize physical symptoms of vicarious trauma and dispatcher self-care. Self-care is an important part of stress management and should be a routine part of healthy living for every 9-1-1 Dispatcher. This class will share some life/health changing education and techniques to assist in reduction of stress, improve working relationships and improve morale. We will talk about the resources in place to help dispatchers cope with PTSD, such as peer support and PCIS (Post Critical Incident Seminar).

216TDL-23J **TELE - THERAPY DOGS FOR 911 - ONLINE** **8 Hours**

Given how severe and persistent mental health issues are in first responders, resources should be easily accessible in the workplace. Many workplace environments that house first responders are now moving towards the use of therapy dogs, as they are available throughout the day to aide in therapeutic interaction when needed and are cost effective in treatment of mental and physical health. We will discuss at length the benefits of a therapy dog in the 911 center and the scientific proof behind those benefits. We will go in depth as to how an agency can obtain a therapy dog and provide numerous resources to the students in reference to dog training facilities and experienced handlers. The differences between a therapy dog and a service dog will also be covered. There will be numerous video testimonials from agency heads who have already implemented this program, along with testimonials from employees who have benefited from it.
